Vishal Vadher

Senior Software Engineer – Webflow & Frontend

Ahmedabad | vishalvadher117@gmail.com | +91 8511310017 | linkedin.com/in/thevishalvadher/

Profile Summary

Senior Software Engineer – **Webflow & Frontend** with **6+ years of hands-on experience** working on complex, content-driven websites. Experienced in collaborating with design, content, and SEO teams to deliver new pages, integrations, and custom frontend solutions. **Strong in Figma-to-Webflow development**, CMS management, HubSpot integrations, and JavaScript-based tracking, with a focus on **building maintainable**, **real-world production systems**.

Skills

- **Web Technologies:** HTML5, CSS3, SCSS, Tailwind CSS, JavaScript, Webflow, Bootstrap, WordPress
- **Design Tools:** Figma, XD, Photoshop, Illustrator, After Effects, Canva
- **SEO & Accessibility:** Meta tags, Schema markup, SEO-friendly design, WCAG Guidelines, Screen Reader Compatibility
- **Animation:** CSS Animation, GSAP (GreenSock), Animate On Scroll (AOS), Lottie (JSON-based animations)
- **Testing & Version Control:** Unit Testing, Browser Testing, Performance Testing, Git, GitHub
- **Project Management:** Jira, Trello, ClickUp, Azure Boards

Work Experience

Space-O Technologies | Sr. Software Engineer – Webflow **Jul 2025 – Present**

- Manage and maintain a large, production Webflow website by working closely with content writers, SEO specialists, and designers to deliver new pages, improve existing sections, and maintain a consistent, scalable site structure.
- Design new pages in Figma using existing design systems, create custom icons, build responsive Webflow layouts, integrate HubSpot forms and third-party tools, and implement custom JavaScript solutions — including user journey tracking that captures page paths and associates them with form submissions for better marketing and SEO insights.

Positiwise Infotech Pvt. Ltd, Ahmedabad | Sr. Web Designer **Jun 2024 – April 2025**

- Managed and enhanced **8+ product-based websites**, improving layouts, optimizing responsiveness, accessibility, mobile-friendliness, and load times, resulting in a more efficient, seamless user experience and higher overall performance.
- Refined website updates from Figma designs and **collaborated with developers** for seamless integration with ASP.NET, ensuring **high code quality**, SEO compliance, optimal performance, and smooth user interactions.

iCoderz Solutions, Ahmedabad | Web Designer **July 2019 - May 2024**

- Created and maintained **80+ responsive websites**, ensuring pixel-perfect PSD/Figma conversions, cross-browser compatibility, and optimized workflows using SCSS & Bootstrap, achieving **90%+ client satisfaction**.
- Mentored and **trained 4 junior web designers**, boosting the team's front-end skills, responsiveness, and coding standards. Converted XD designs into responsive email templates, improving brand consistency and **increasing productivity by 25%.**
- Implemented **Lottie animations**, converting After Effects animations into lightweight JSON files using the Bodymovin plugin, resulting in positive client feedback and improved engagement.

Projects

Vanguard7 - Link

- Built a Webflow website from Figma designs, ensuring **99% pixel-perfect accuracy** across browsers and devices, improving user engagement and overall **site performance by 40%**, while enhancing responsiveness and load times.
- Integrated **Webflow CMS for blogs** and events, enabling easy content updating and event management, **improving content accessibility**, workflow efficiency, and optimizing the overall user experience and site maintenance.
