# Vishal Vadher

Senior Software Engineer – Webflow

Ahmedabad, India · vishalvadher117@gmail.com · +91 8511310017 · linkedin.com/in/thevishalvadher

## Profile Summary

Webflow developer with **7+ years** in web design and frontend work. For the last 1.5 years I've been the dedicated developer on OLOID's Webflow site, building **landing pages**, managing the **CMS**, handling **SEO**, and setting up forms and tracking with the marketing team. I also use Claude with the Webflow MCP to speed up repetitive build and content work.

## Skills

- **Webflow**: Designer, CMS, Interactions, components with variants, responsive layouts
- **Frontend**: HTML5, CSS3, SCSS, JavaScript, Tailwind, Bootstrap, WordPress, GSAP, Lottie
- **SEO and accessibility**: meta tags, schema, alt text, sitemaps, semantic HTML, WCAG
- **Tracking and integrations**: GA4, GTM, HubSpot, custom JS event tracking
- **AI tools**: Claude + Webflow MCP (custom skills for CMS and dev rules), AI image generation
- **Testing**: cross-browser, device, Playwright automation, AI code and security review
- **Design**: Figma, Adobe XD, Photoshop, Illustrator, After Effects, Canva
- **Tools**: Git, GitHub, Jira, ClickUp, Trello, Azure Boards

## Experience

**Space-O Technologies** | Senior Software Engineer – Webflow **Jul 2025 – Present**

- Dedicated developer for OLOID's production Webflow site, working with writers, SEO and design teams.
- Design pages in Figma from the existing design system, then build them in Webflow with reusable components.
- Set up CMS collections so the content team can publish pages without developer help.
- Integrated HubSpot forms and meetings, RevenueHero demo booking, and CookieYes consent.
- Wrote custom JavaScript that links a visitor's page journey to their form submission for marketing.

**Positiwise Infotech** | Senior Web Designer **Jun 2024 – Apr 2025**

- Looked after **8+ product websites**, improving layouts, responsiveness, accessibility and load times.
- Built page updates from Figma and worked with .NET developers to integrate them with SEO checks.

**iCoderz Solutions** | Web Designer **Jul 2019 – May 2024**

- Built and maintained **80+ responsive websites** from PSD and Figma using SCSS and Bootstrap.
- Trained and mentored **4 junior web designers** on responsive layouts and clean code.
- Converted XD designs into email templates and After Effects animations into Lottie files.

## Projects

**OLOID (via Space-O) - Link**

- Ongoing Webflow build and maintenance since Jul 2025: landing pages, CMS structure, **HubSpot** forms, third-party integrations and **custom page-journey tracking**.
- **Design work**: Figma pages from existing components, custom icons, AI-assisted blog images, event thumbnails and LinkedIn ad creatives for the marketing team.

**Vanguard7 (via iCoderz) - Link**

- Built the full site in Webflow from Figma designs, matched closely across browsers and devices. Set up CMS collections for blogs and events so the client could manage content on their own.

**Other Webflow and web projects**

- Reunion Site, BOJK, Wide Wings, Roth Gärten, OpenBook, Guetta Capital, Brand.io Landing Page (concept)
